

SKIN PROBLEMS AND HOMOEOPATHY

Homoeopathy is gradually increasing in popularity as the choice of treatment in people suffering from chronic skin conditions like acne,vitiligo,eczema,ringworm ,psoriasis,urticaria to name a few.

As per the homoeopathic principles,skin problems can never be completely cured by external applications like medicated creams and ointments..Such applications do provide temporary relief but can not cure the skin problems completely and permanently..

It is through the well selected homoeopathic medicines taken internally that provide CURE in such cases..Presenting a case of ACNE in a young girl that was completely cured through homoeopathy at CURE HOMOEOPATHIC CLINIC by Dr.Parinita Srivastava..
